

Madeira Collection NR 3

The sweet one, made by a blend of different malvasia's from different warehouses. The aging of these wines in different warehouses gives a total different style to the wine. Some are colder giving less oxidation more freshness, other are warmer providing power and exuberant aroma. The result is a fantastic sweet wine that never feels heavy and combines with the most demanding food/

Producer	Vinhos Barbeito
Region	Madeira
Volume	50.0 cl.
Grape Variety	Malvasia
Drinking window	every day
Alc.	20.0%
Vinificatie	-

Rijping The MC 1234 is a project created by the Madeira Collection to lower the entry level on Madeira wines by giving the wines less oxidation. We try to do that by blending young wines +/- 10 years old of different grape varieties with lots of fruit and good freshness. The project goal is to bring a different style from what exists in the general offer of Madeira wines.
